

MOHAMED LAHMAM

Software Engineer Specialized in PHP/Laravel

☎ +212-625-872-768 @ lh186261@gmail.com 🔗 <https://www.linkedin.com/in/mohamed-lahmam-a4655b27a/>
📍 Casablanca, Morocco

SUMMARY

Final-year Software Engineering student with a strong foundation in backend development, specialized in PHP and the Laravel framework. Passionate about building scalable, secure, and maintainable web applications using modern development practices such as MVC architecture and RESTful API design. Skilled in object-oriented programming and deeply familiar with software engineering fundamentals, including network protocols and system design.

EXPERIENCE

PHP/Laravel Engineer Intern

Innovqube.

📅 07/2025 - 09/2025 📍 Paris, France

- As a backend Laravel developer, I contributed to the development of a scalable booking SaaS platform, focusing primarily on automation, backend logic, and infrastructure integration. I worked in an Agile team using Scrum methodology, and participated in the full development lifecycle from planning to deployment and testing.
 - Developed and maintained backend features using **Laravel** and **Eloquent models**.
 - Implemented **automated notifications** via **Email, SMS, and WhatsApp** using **Twilio API**.
 - Built event-driven logic using **Observers, Event Listeners**, and **Redis Queues** for job dispatching.
 - Managed **CI/CD pipelines** with **GitLab** for continuous integration and deployment.
 - Wrote and maintained **PHPUnit tests** for backend logic validation.
 - Designed efficient **MySQL** queries and optimized data handling.
 - Participated in **Scrum ceremonies** including daily standups, sprint planning, and code reviews.

Software Developer Intern

Skoolution

📅 04/2025 - 07/2025 📍 Agadir, Morocco

- Contributed to the development of a full-stack e-learning platform inspired by Coursera, with responsibilities across both frontend and backend components using the **MERN stack**.
 - Built dynamic, responsive UI components using **React.js** and **TailwindCSS**, focusing on accessibility and performance.
 - Developed backend features using **Node.js** and **MongoDB**, including user authentication flows and API integrations.
 - Integrated third-party APIs for content delivery and communication.
 - Ensured cross-browser compatibility and mobile responsiveness using **HTML, CSS, JavaScript**, and **Bootstrap**.

EDUCATION

Engineering Degree: Network and Computer Systems Engineering

FSTG Marrakech

📅 09/2023 - 07/2026 📍 Marrakech, Morocco

University Diploma in Science and Technology (DEUST):Mathematics, Computer Science, Physics

Faculté des sciences et techniques de Mohammedia

📅 10/2021 - 07/2023 📍 Mohammedia, Morocco

High School Diploma: Physical Sciences

Lycée bajja

📅 2018 - 2021 📍 Settati, Morocco

SKILLS

Laravel - PHP - RESTful API - MVC Architecture - Unit Testing&Debugging

SKILLS

MySQL - PL/SQL - Oracle DB

Data Structure & Algorithms - OOP(Object Oriented Programing) - C/C++/JAVA/C#

React.Js - Express.Js - Node.Js

Git/GitHub/GitLab - CI/CD (Continuous Integration/Continuous Delivery)

Linux - Bash Scripting - Network Basics

Scrum - Kanban - Jira
